DML MECHANICAL
HEATING & COOLING

CAPABILITY STATEMENT

HVAC Subcontractor · General Contractors & Builders
Wasatch Front, Utah

DML Mechanical LLC is a Utah-licensed HVAC and mechanical contractor serving general contractors and builders with complete HVAC scopes: pricing from plans and specifications, design-assist load calculations, installation, start-up and closeout. Company-run field crews, a foreman on every job, and written, organized proposals delivered on the bid date.

CORE SCOPES

- **Commercial & TI:** rooftop units, split systems and ductless, exhaust and make-up air fans, VAV and air distribution, tenant improvements in occupied buildings
- **Sheet metal:** rectangular, spiral and round ductwork, lined duct, grilles, registers and diffusers, louvers and dampers
- **Multifamily & residential:** new construction, production and high-end custom homes, furnaces, heat pumps, air handlers, ERV/HRV
- **Fuel gas piping:** natural gas and propane, installed by DML's RMGA-trained crew
- **Design-assist:** ACCA Manual J / S / D load, equipment and duct calculations (Wrightsoft), REScheck support
- **Coordination:** TAB, controls and electrical coordination, start-up, O&M and closeout documents
- **Service:** replacement, repair and warranty service

HOW WE WORK WITH GCS

- Bid or decline response on every invitation
- Itemized proposals: base bid, alternates, clear inclusions and exclusions
- RFIs submitted early, during bidding
- Platforms: BuildingConnected, PlanHub, Procore, SmartBid, Blue Book, U3P
